Do you know of a problem that can be solved with software? Do you have a great idea for a mobile app but don't know where to start? Want help – and funding – to bring your solution to life?

This idea-stage challenge open to UArizona undergraduate and graduate students\* to propose and develop solutions to real-world problems.

*\*While teams may include undergraduate and graduate students, faculty, researchers and staff, each team MUST include at least one student.*

Proposals should address one or more of these categories:

- HUMAN HEALTH
- SPACE EXPLORATION & OPTICAL SOLUTIONS
- NATIONAL DEFENSE & SECURITY SYSTEMS
- RESILIENCE: WATER, ENVIRONMENTAL & ENERGY SOLUTIONS
- WORKFORCE DEVELOPMENT: CREATING JOBS AND MAKING BETTER WORKPLACES
