

CREATING INNOVATION WITH SOFTWARE

LUNCH WITH SOFTWARE INVENTORS & TECH LAUNCH ARIZONA

THURSDAY, OCTOBER 13
12:00 - 1:00 PM
SILVER & SAGE ROOM
OLD MAIN

**AS A UNIVERSITY OF ARIZONA
EMPLOYEE, YOU DEVELOP
SOFTWARE THAT CAN CHANGE
THE WORLD.**

**TECH LAUNCH ARIZONA CAN HELP
PROTECT IT AND BRING IT TO THE
WORLD THROUGH COMMERCIAL
PATHWAYS**

You've spent your career developing your cutting-edge software. Now is the time to make sure the Intellectual Property is protected. Join Senior Software & IT Licensing Manager Lewis Humphreys, Professor Christian Collberg, and Director Edwin Skidmore as they discuss the first steps to generating impact.

PANELISTS:

CHRISTIAN COLLBERG is a Professor and interim head in the Department of Computer Science at the University of Arizona. He will be discussing his successful cybersecurity software Tigress, which is used in both research and commercial applications.

EDWIN SKIDMORE is the Director of Infrastructure for CyVerse. He will be discussing CACAO- the cloud management system he developed, as well as his plans to build a startup company based on his innovation.

LEWIS HUMPHREYS, Senior Software & IT Licensing Manager for Tech Launch Arizona, has been managing software inventions at the University of Arizona since 2013. Lewis was also Managing Director of the Cybersecurity and Privacy Institute at the University of Waterloo, and is the founder of TEDxTucson.

SPACE IS LIMITED!
